

22' STANLEY LANDING CRAFT

Our 22' Stanley landing craft is quiet and fuel efficient, equipped with a 150hp 4 stroke Yamaha outboard. It is perfect for rigging jib arms, video village, rain towers and as a general support or picture boat. The power drop down ramp makes it incredibly easy to bring large equipment (ie. camera dollies) on board and is pre-rigged with 2" pipe rails with ample tie downs for easy and painless rigging. A custom, removable fold out dive ladder and rails off the bow ramp are pre-rigged and easily added to make this a versatile dive boat for diving operations.

*Load Capacity = 6-10 persons with gear
(approx 1800-2000 lbs)*
